

Print

A simple, powerful print
management solution
for corporate, educational and
institutional environments

Do you Monitor?

Monitor waste.

Monitor spending.

Monitor security.

Monitor Print

Reduce Waste

More control over who can print what and visible tracking of paper use means users are invested in the use of paper, power and ink.

Recover Costs

Customise rules for users, enforce double-sided or black-only printing, and set your own parameters when it comes to quotas and budgets.

Increase Security

With Secure Find-Me Printing, user authentication and tracking, your sensitive documents will only print where and when you want them to.

Web Print

- BYOD support
- Print from anywhere
- Out-of-the-box functionality with immediate print support for over 30 filetypes
- Print URL - any webpage or file
- Print email attachment without opening file
- Print from cloud, Google Docs, AirPrint
- Scan to cloud

Print Management

- Specify settings for individuals, departments, projects, or any other grouping
- Enforce restrictions and permissions around double-sided printing, ink usage and job size
- Queue job to most efficient printer
- Print pop-ups allow users to view and manage settings before confirming
- Online reporting
- Powerful database tracking

MFD Integration

- Monitor software seamlessly operates within existing hardware
- User authorisation with card reader, PIN and/or biometrics
- Manage each job's print settings directly at interface
- Intuitive software lessens learning curve while providing multiple options
- Secure Find-Me allows users to print jobs at any connected MFD

Created to streamline and simplify even the most complex of multi-user printing demands, Monitor makes printing as easy as it should be.

Monitor Print's embedded software integrates easily with all major brands

brother

SHARP

Canon

KYOCERA

TOSHIBA

KONICA MINOLTA

Lexmark

OKI

RICOH

FUJI XEROX

Easy & Efficient

- 1  User creates print job from any network or internet connected device
- 2  Print job sent to Queue and Print Managers
- 3  User logs in to printer or terminal using ID or job code
- 4  Job prints exactly when and where user wants

The Details

- Utilises the power of Microsoft SQL and Monitor's Supervisor Net to create a versatile and scalable user database
- Monitor's web-based application can be handled by multiple user computers simultaneously
- BYOD, mobile and network printing easily integrated
- Prevent wasted paper by eliminating unclaimed printing with increased user responsibility
- Improve efficiency by managing print queues or printing your documents on any network printer
- Guarantee document security and user privacy, even in public settings, with secure user databases or one-off log ins
- Match the departmental structure in your university, school or business. Specify permissions and restrictions per individual user or department
- Embed Monitor software on your existing printers and photocopiers
- Customise the Monitor Print Pop-Up with your own branding
- Web Portal for top up of accounts, including auto top up options
- Web Portal to manage account for both Admin and users
