Transaction Management

iPOS
for
Libraries

Fast and easy

Monitor iPOS is a quick point of sale system with a powerful brain. Developed to help library spaces with the process of Fees and Fines and products you may sell.

With a focus on fewer keystrokes and shaving time off fidling around with allocating the right fees and fines to the right area and using seperate systems, iPOS is a one stop shop when it comes to incoming transactions.

Eliminate the queue!

➤ Lightning-fast – from button response to payment processing

➤ Suits any library - no matter the size

➤ Integrates to Supervisor Net for centralised data, screen layouts, stock control & reporting. Provides patrons the option of paying for items using funds on their library card

➤ Operator can choose which fees are being paid for in the case of partial payment

➤ Multiple payment methods can be integrated - EFTPOS, cash, voucher, cheque and all types of library cards. Barcode and tap & go cards!

➤ Configurable and customisable buttons and layout

➤ Integrated EFTPOS functionality supporting all major Australian Banks

➤ Customisable tender types to account for special vouchers, site-specific payment types

➤ Linked to existing ID/membership cards

➤ iPOS security with scannable staff login cards at the point of sale. All sales are reconciled towards a staff member and reports can be given on who is selling what. Supports all cards; HID iclass, Indala etc.

➤ iPOS talks to your current LMS system about paid fees & fines

➤ Customer facing screen displays a breakdown of the fees/fines being paid
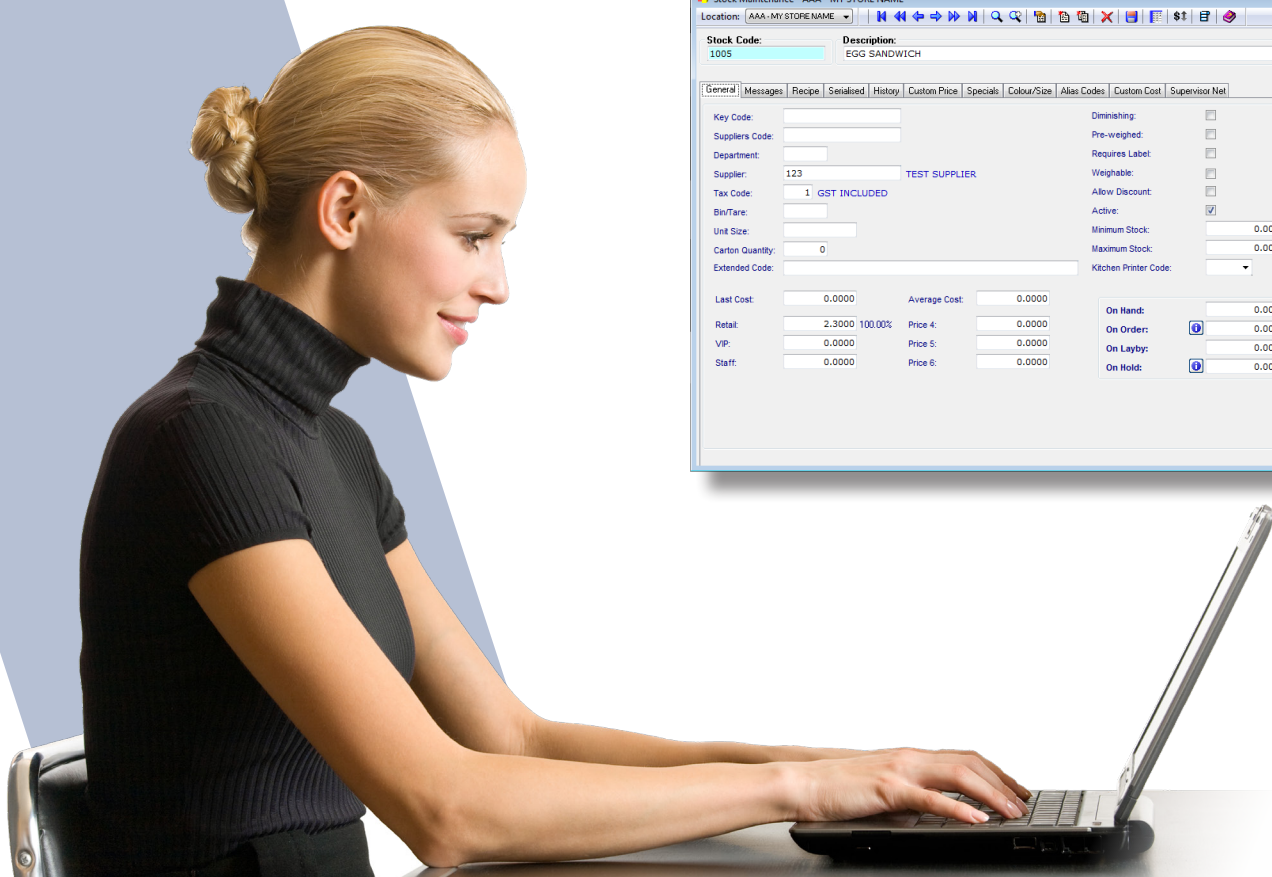

MONITORBM
Transaction Management

Intelligent

Behind the screens, iPOS is a powerhouse of data management. Tracking everything from customer purchase history to library stock level on any products you may sell, iPOS can give you the information you need to manage your library into the future.

Everything that moves through the till can be accounted for, from the colour and size of a library bag to the individual fees and fines the customer may be settling, iPOS allows you to know exactly what's going on. Optional feature also includes staff scan security entry to iPOS system to have individual record of who is selling what.

Organise your products & fees/fines in one place

➤ Stable and reliable, with support when you need it

➤ Seamlessly integrates with Monitor's full suite of products

➤ Taxes can be calculated automatically

➤ Powerful online reporting capabilities with customisable parameters, including live reporting

➤ Import data from CSV files and/or export in multiple formats

➤ Detailed stock management with multiple category types, stock take, automatic reordering and manual input options

➤ Manage suppliers at a glance with linked transaction and account management

➤ Able to grow with your library
